December 3, 2020

To the Honorable Mayor, City Council and Citizens of Live Oak:

COMPREHENSIVE ANNUAL FINANCIAL REPORT OF THE CITY OF LIVE OAK

We are pleased to present the Comprehensive Annual Financial Report (CAFR) of the City of Live Oak for the fiscal year ended June 30, 2020. Although addressed to the City's governing body and its citizens, the CAFR is intended also to provide relevant financial information to creditors, investors, and other interested parties. This transmittal letter provides a summary of City of Live Oak finances, services, achievements and economic prospects for readers without a technical background. Those wishing a more detailed discussion of the City's financial results should refer to Management's Discussion and Analysis (MD&A) contained in the Financial Section of the CAFR.

Management takes sole responsible for the accuracy of the information contained in this report, the adequacy of its disclosures, and the fairness of its presentation. To provide a reasonable basis for making this representation, the City has established a system of internal controls designed to protect City assets from loss, to identify and record transactions accurately, and to compile the information necessary to produce financial statements in conformity with generally accepted accounting principles.

The City contracted with Lance, Soll & Lunghard, LLP, a firm of Certified Public Accountants licensed to practice in the State of California, to perform the annual independent audit. The goal of the audit is to obtain reasonable, but not absolute assurance that the financial statements are free of material misstatements and are fairly presented in conformity with the generally accepted accounting principles (GAAP). The City auditors have issued an unmodified opinion that the City's financial statements for fiscal year ended June 30, 2020. This conclusion is the most favorable kind and is presented as the component of the financial section of this report.

REPORTING ENTITY

The City of Live Oak is a growing, rural community located on the Highway 99 corridor 60 miles north of Sacramento at the north end of Sutter County. Incorporated in 1947 and named for the oak forest that once dominated the landscape, Live Oak is rooted strongly in agriculture, surrounded on all sides by bountiful agriculture production including peaches, nuts, rice, and other crops. Live Oak has grown to a population of 8,900 residents and comprises of 3.1 square miles.

The City is a full-service general law city that operates under a Council-Manager form of government. The City's five Council Members are elected at large and serve four year terms. The elections are staggered every two years, with three seats open in one election and two seats open in the next election. The Mayor and Vice-Mayor are elected by the City Council to serve one-year terms. The City Council appoints a City Manager to implement its policies and directives. All of the City departments operate under the supervision of the City Manager.

The City provides a full range of municipal services, including police and fire protection, street and park maintenance, community development, building inspection, code enforcement, recreation programs, finance, grants and general administration. The City also operates a municipal pool, water treatment plant and a new waste water treatment facility.

At one time a major hub for shipping produce, Live Oak is still linked to transportation with both the Union Pacific Railroad tracks and Highway 99 running north and south through the community. The world's smallest mountain range, the Sutter Buttes, is seven miles west of the city providing magnificent views of this natural attraction. The Feather River flows quietly less than two miles to the east.

The Live Oak City Council has responded to recent growth with significant policy accomplishments including adoption of a new 2030 General Plan, new zoning ordinance, building design guidelines, water/sewer/storm drain master plans and a streetscape design master plan for the Highway 99 corridor. Over 300 acres of highway frontage zoned for business growth was annexed in 2011. A state-of-the-art wastewater treatment plant was completed in 2012 ensuring adequate capacity for expected growth. The newly renovated Live Oak Depot, an icon of the community's historic link to the railroad, anchors the downtown core. New renovated parks provide recreational opportunities for Live Oak residents. Live Oak is poised as one of the nicest rural communities in the northern Sacramento Valley.

ECONOMIC CONDITION AND OUTLOOK

Property taxes, sales taxes, general taxes and assessments received by the City's governmental funds for the most recent two years reflected steady improvement. These two recent years began to restore the City's core revenue base to what it was received in the peak year of FY 2007-08. Commercial expansion remains stagnant in Live Oak and the surrounding area. The widening of Highway 99 is expected to lead to new commercial opportunities. In the past 18 months, the City has experienced the addition of 100 new single family homes, with another 50 pending permits.

In recent years, the City has leveraged various grant sources in funding significant public improvements projects including the City's new soccer park, sheriff and fire station rehabilitation and recent expansion of its bike/pedestrian trail system. Such projects add to the existing community assets and provides for new facilities for the betterment of public services being delivered to the City's residents.

SIGNIFICANT EVENTS AND ACCOMPLISHMENTS

Highlights of activities and accomplishments for the fiscal year ended June 30, 2020 include the following:

- Continued construction of the Underground Utility project
- Continued construction of the new municipal water well
- Completed construction of the Pennington Road reconstruction project
- Commencing of Highway 99 construction that widens highway to four lanes through the City

FINANCIAL INFORMATION

The City's management staff is responsible for establishing and maintaining internal controls that safeguard the assets of the government from loss, theft, or misuse and allow the compilation of adequate accounting data for the preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed its likely benefits and that the evaluation of costs and benefits is subject to management estimates and judgments.

Budgetary Controls

The City maintains budgetary controls to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the City Council. Activities of the majority of the funds are included in the annual appropriated budget. In administering the budget, the City Manager shall have the authority to provide each department with sufficient funding to meet its needs so long as a decision to vary from approved appropriations does not exceed, except in the case of emergencies, the total resources estimated to be available to the affected municipal fund at the time of the decision. If necessary, staff recommends budgetary changes during periodic financial status reports to the City Council.

The City continues to meet its responsibility for sound financial management as demonstrated by the statements and schedules included in the financial section of this report.

AWARD AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate for Excellence in Financial Reporting to the City of Live Oak for its comprehensive annual financial report for the fiscal year ended June 30, 2019. This award recognizes the City's conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, the government must publish an easily readable and efficiently organized comprehensive annual financial report, whose contents conform to program standards. Such report must satisfy both generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirement and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this CAFR represents the culmination of a concerted team effort by the entire staff of the Finance Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. In addition, staff in all City departments should be recognized for their timely and positive response to the requests for detailed information necessary to prepare the annual audit. The role of Lance, Soll & Lunghard, CPAs, should also be acknowledged as a significant contribution.

Finally, we wish to express our sincere appreciation to the Mayor and City Council for providing policy direction and a firm foundation of support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully submitted,

Goe Cynl

Joe Aguilar

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of the City Council City of Live Oak, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Live Oak California, (the City) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

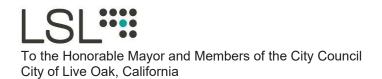

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Live Oak, California, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison schedules for the general fund and program income fund, the schedule of proportionate share of the net pension liability, the schedule of plan contributions, the schedule of changes in net OPEB asset and related ratios, and the schedule of OPEB plan contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements, budgetary schedules and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements and schedules are fairly stated, in all material respects in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

To the Honorable Mayor and Members of the City Council City of Live Oak, California

Lance, Soll & Lunghard, LLP

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 3, 2020, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Sacramento, California December 3, 2020 THIS PAGE INTENTIONALLY LEFT BLANK

MANAGEMENT'S DISCUSSION AND ANALYSIS

The following discussion provides readers of the City of Live Oak, California's (City) financial statements a narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2020. This document should be read in conjunction with the accompanying Letter of Transmittal and basic financial statements, which follows this section.

FINANCIAL HIGHLIGHTS

The City's assets and deferred outflows exceeded its liabilities and deferred inflows by \$85,601,580
as of June 30, 2020, an increase of \$4,190,369 from the prior year. The increase is primarily
attributable to grant revenues received during the fiscal year.
The City's governmental funds reported a combined fund balance of \$7,407,377, a decrease of
\$490,585 from the prior year.
General Fund revenues of \$3,332,471 were \$349,991 lower than the prior year.
General Fund expenditures of \$3,540,387 represented a decrease of \$439,672 from the prior year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of a series of financial statements, commonly referred to as the City's Basic Financial Statements. Management's Discussion and Analysis introduces these statements and includes two different views of the City's financial activities and position: (1) Government-Wide Financial Statements provide information about the activities of the City as a whole and present a longer-term view of the City's finances; (2) Fund Financial Statements provide detailed information about the individual functions of City government, telling how services were financed in the short-term as well as what remains for future spending.

Each set of statements presents the City's finances in a distinct way. To assist the reader in understanding the differences between them, a brief discussion of each follows, including the relationship of these statements to each other and the significant differences in the information they provide.

Government-Wide Financial Statements

The government-wide financial statements provide a broad overview of City finances in a manner similar to private sector business. These statements separate the City's activities into two areas:

Governmental Activities – these services are principally supported by taxes and intergovernmental revenues. Most of the City's basic services are considered to be governmental activities including public safety, community development, public works, parks and recreation, and general administration.

Business-Type Activities – these services rely upon user fees and charges to help cover all or most of their costs. The City's water and wastewater systems are reported here. Unlike governmental activities, these services are supported by charges supported by users based on the amount of the service they use.

The two statements can be generally described as follows:

The Statement of Net Position presents information on all the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs regardless of the timing of related cash flows.

Notably, these statements differ from the fund financial statements in that they include all assets of the City (including infrastructure) and all liabilities (including long-term debt) and exclude certain interfund receivables, payables and other interfund activity. For additional reference, reconciliation between the two is provided on pages 19 and 22 of this report.

Fund Financial Statements

The fund financial statements provide detailed information about each of the City's most significant funds – not the City as a whole. Management establishes funds to help control and manage money for purposes. The City uses three types of funds: governmental, proprietary and fiduciary.

Governmental Funds – most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. This information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship between governmental activities (reported in the statement of net position and the statement of activities) and the governmental funds in reconciliation at the bottom of the fund financial statements.

Proprietary Funds – when the City charges customers for services it provides, whether outside customers or to other units of the City, these services are generally reported in proprietary funds. Proprietary funds provide the same type of information as shown in the government-wide financial statements (i.e., business-type activities), only in more detail. The City uses enterprise funds to account for its water and sewer operations; in addition, the City uses enterprise funds to account for water and sewer connection fees.

Fiduciary Funds – the City is the trustee, or fiduciary, for certain funds held on behalf of external parties. The City's fiduciary activities are reported in a separate statement of fiduciary net position. These activities are excluded from the City's other financial statements because the resources of the funds are not available to support the City's own programs. The City is responsible for ensuring that the assets reported in these funds are used for the intended purposes.

NOTES TO BASIC FINANCIAL STATEMENTS

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

REQUIRED SUPPLEMENTARY INFORMATION

In addition to the basic financial statements and accompanying notes, this report presents the following required supplementary information: budgetary comparisons for the City's General Fund and major funds as well as a description of the City's accounting policies with regard to the annual budget. The City also reports certain schedules related to the net pension liability and net OPEB asset.

FINANCIAL ANALYSIS OF THE GOVERNMENT-WIDE STATEMENTS

The government-wide financial statements provide long-term and short-term information about the City's overall financial conditions. This analysis addresses the financial statements of the City as a whole.

Following is a summary of net position:

	As of June 30, 2020		As of June 30, 2019			
	Governmental	Business-type		Governmental	Business-type	
	Activities	Activities	Totals	Activities	Activities	Totals
Current and other assets	\$ 26,887,053	\$ 5,343,482	\$ 32,230,535	\$ 22,592,231	\$ 4,735,482	\$ 27,327,713
Capital assets, net	28,535,349	34,785,252	63,320,601	29,311,045	34,718,995	64,030,040
Total assets	55,422,402	40,128,734	95,551,136	51,903,276	39,454,477	91,357,753
Deferred Outflows	294,631	318,160	612,791	284,431	384,405	668,836
Current and other liabilities	1,283,746	596,849	1,880,595	1,236,715	486,532	1,723,247
Non-current liabilties	1,410,136	7,120,567	8,530,703	1,332,438	7,405,251	8,737,689
Total liabilities	2,693,882	7,717,416	10,411,298	2,569,153	7,891,783	10,460,936
Deferred Inflows	76,566	74,483	151,049	69,187	85,255	154,442
Net Position						
Net investment in capital assets	28,129,068	28,405,269	56,534,337	28,831,714	28,082,900	56,914,614
Restricted	3,885,096	815,915	4,701,011	3,708,676	540,108	4,248,784
Unrestricted	20,932,421	3,433,811	24,366,232	17,008,977	3,238,836	20,247,813
Total Net Position, restated	\$ 52,946,585	\$ 32,654,995	\$ 85,601,580	\$ 49,549,367	\$ 31,861,844	\$ 81,411,211

Net position represents the difference between the City's resources and its obligations. At June 30, 2020, the largest portion of the City's total net position, 66 percent, reflects the net investment in capital assets. This component of net position, which reflects the total amount of funds used to acquire those assets less any outstanding debt used for such acquisition, was \$56.5 million at June 30, 2020. These capital assets are used by the City to provide services to the citizens.

Overall, the net position for the governmental portion of the City funds has improved due to both operating results and increase contributions from operating and capital grants. The net position of the business-type activities decreased from the prior year due to a decreasing position in capital assets.

Restricted net position of \$4.7 million represents resources subject to external restrictions as to how they may be used. Unrestricted net position of \$24.4 million represents amounts that may be used to meet the City's ongoing obligations to its residents, businesses, customers, and creditors.

Following is a summary of changes in net position:

	As of June 30, 2020			As of June 30, 2019			
	Governmental	Business-type		Governmental			
	Activities	Activities	Totals	Activities	Activities	Totals

Governmental Activities:

The City's governmental activities increased the City's net position by \$3.4 million. Revenues, net of transfers, were \$13.7 million which represented an increase of \$8.2 million or 147 percent, and expenses were \$10.3 million which represented an increase of \$4.8 million or 88% percent. Governmental activities highlights include the following:

Taxes provided \$3.7 million or 27 percent of the total governmental activities revenue of the City. This amount is an increase of \$0.1 million from the prior year. This increase is primarily as a result of a general increase in excise taxes

Charges for services, operating grants and capital grants provided \$10.6 million or 77 percent of the total governmental-activities revenue of the City. This amount is an increase of \$8.7 million from the prior year and attributable to an increase in grant funds received.

Business Type Activities

Business-type activities increased the City's net position by \$0.8 million. Revenues were \$4.96 million which represented an increase of \$1 million due to an increase in transfers of capital assets from governmental activities to business-type activities. Business type activities highlights include the following:

Charges for services provided \$3.5 million or 70 percent of the total business type activities revenue of the City. This is and increase of approximately three percent (3%) from the prior year due to increased consumption. Transfers between the governmental activities and business-type activities increased by 246% as compared to prior year due to the completion of construction projects.

FINANCIAL ANALYSIS OF THE FUND STATEMENTS

The City uses fund accounting to assure and demonstrate compliance with finance-related legal requirements. The fund financial statements focus on individual parts of the City government, reporting the City's operation in more detail than the government-wide statements. The City's governmental funds provide information on near-term inflows, outflows and balances of spendable resources. The City's governmental funds reported combined fund balances at June 30, 2020 of \$7,407,377. The General Fund decreased by \$207,916 and all other Governmental Funds decreased by \$282,669. Within the governmental funds, the decrease in fund balance was attributable a decrease in the receipt of charges for services, property taxes and sales taxes.

Analysis of Major Governmental Funds

General Fund

General Fund revenues totaled \$3,332,471 in fiscal year 2019-20, a decrease of \$349,991 over last year. The primary decreases were in licenses and permits in the amount of \$124,930 and property taxes in the amount of \$217,975. The decrease in licenses and permits is a direct result of the cessation of economic activity due to the COVID-19 pandemic. The decrease in property taxes is due to lowered collections of property taxes by the County during the fiscal year. General Fund expenditures totaled \$3,540,387 in fiscal year 2019-20, a decrease of \$439,672 over last year. The primary decreases were in general government in the amount of \$144,490 and capital outlay in the amount of \$612,858. Decreases in general government were attributable to cost-cutting measures made by the implementation of the fiscal year 2020 budget. The decrease in capital outlay is primarily due to the completion of a significant number of capital projects in the prior year.

At the end of fiscal year 2020, the fund balance for the City's General Fund was \$4,462,405 a decrease of \$207,916 over last year. The fund balance in General Fund comprised of \$10,659 in nonspendable fund

balance, \$2,604,891 committed fund balance and \$1,846,855 unassigned fund balance. The committed fund balance increased from last year by \$28,560, while the unassigned fund balance decreased \$231,867.

The following table summarizes the budget to actual results for the City's General Fund. Overall the actual expenses for the year were slightly more than budgeted. However, the more detailed information shows unexpected budgeted expenditures that resulted from the accounting treatment of the City participating in a joint facility agreement for a shared animal shelter with the neighboring city of Yuba City and the County of Sutter.

			As o	f June 30, 2020

	\$	4,051,462	\$	4,051,462	\$	3,540,387

Program Income

Program income fund revenues totaled \$52,642 in fiscal year 2019-20, a decrease of \$19,703 due to less program activity. Program income expenditures totaled \$337,247 an increase of \$320,350 related to capital projects. At the end of fiscal year 2019-20 the Program income fund balance was \$143,322 a change of \$284,605.

16-HOME-11532

16-HOME-11532 fund revenues for fiscal year 2019-20 totaled \$4,052,311, an increase of \$4.05 million. This is a result of receiving grant reimbursements for current year expenditures. Expenditures in the fund totaled \$4,054,703, an increase of \$4.05 million. This is primarily due to the issuance of a loan to a developer for the development of affordable housing. At the end of fiscal year 2019-20 fund balance was (\$9,102), a decrease of \$2,392.

Capital Improvement Project

The capital improvement fund accounts for major City capital improvement projects. The fund is budgeted on a project length basis and therefore is not comparable on an annual basis. There were no revenue and had transfers of \$41,023 in received in fiscal year 2019-20. Expenditures totaled \$239,758 in fiscal year 2020.

Other Governmental Funds

These funds are presented in aggregate on the face of the fund financial statements and individually in the Supplementary Information.

Analysis of Major Enterprise Funds

Water

The water fund is financed and operated in a manner similar to that of a private business. Overall, operating revenues increased \$140 due to a slow recovery from the statewide drought from prior years. In addition, operating expenses held steady at \$1,291,970 annually, up \$210 over the prior year. As of June 30, 2020,

the fund's net position went from \$8,953,071 in 2019 to \$9,937,089 in 2020 representing an increase of \$984,018. The fund's net investment in capital assets went up by \$1,123,074 due to the transfer of infrastructure assets constructed by the governmental activities, offset by depreciation. The fund reported a deficit in unrestricted net position in the amount of (\$292,942) at the close of fiscal year 2020. Due to the age of the water system infrastructure, significant investments will be required in future years to update water lines and equipment.

Sewer

The sewer fund is financed and operated in a manner similar to that of a private business. Net position of the sewer fund decreased to \$466,674 in fiscal year 2020. As of June 30, 2020, the fund's net position totaled \$21,901,991 of which \$18,175,338 remains invested in capital assets net of related debt. The fund's unrestricted net position was \$3,726,653 at the close of fiscal year 2020. Overall, operating revenues remained fairly constant at \$2,328,299 with an increase of \$38,511 over the prior year. Operating expenses totaled \$2,72,768 for the year, a 3% decrease of \$88,153 over the prior year. Non-operating items did not significantly change from the previous year. Due to the age of the sewer system infrastructure, significant investments will be required in future years to update sewer lines and equipment.

CAPITAL ASSET AND DEBT ADMINISTRATION

The City records all of its capital assets including infrastructure. At the end of 2020, the City had invested \$63.3 million in a broad range of capital assets, including park facilities, streets and roads improvements, and water well construction. Additional detailed information on the City's capital assets is presented in Note 4 to the financial statements on pages 42 through 44.

The financial statements summarize the City's accounting policies regarding capital assets in Note 1 Section I of the note disclosures.

Following is a summary of capital assets:

	Balance at		Balance at	
	June 30, 2020		June 30, 2019

Infrastructure		48,864,895		47,731,996
Less: Accumulated depreciation		(19,284,559)		(17,842,019)
Business-type Activities Capital Assets (net)	\$	34,785,252	\$	34,718,995

At June 30, 2020, major construction in progress include the undergrounding of utility lines project in the governmental activities and the construction of well #7 for the water fund.

Long-term Debt:

At June 30, 2019 and 2020 the City had \$7.4 million and \$7 million respectively in long-term debt outstanding. The City made all scheduled repayments on existing debt on time. Additional detailed information about the City's total long-term liabilities is presented in Note 7 to the financial statements.

As of June 30, 2020, the City's debt consisted of:

Governmental Activities Debt:

2012 City of Yuba City/County of Sutter joint facility animal shelter loan due 2023 2018 Fire Engine Lease – 3.570% due 2025	\$ 211,530 406,281

Total Governmental Activities Debt	\$ 6,379,983
Total Outstanding Debt	<u>\$ 6,997,794</u>

ECONOMIC FACTORS AND NEXT YEARS BUDGET

The City experienced significant decreases in property taxes, assessments and building fees, its largest General Fund revenue source, over the past several years. This trend began to decline in fiscal year 2008-09 as the value of properties declined significantly over the next four years and new housing construction decreased significantly. Assessed property values began increasing over the recent two years moving from \$401 million in 2019 to \$432 million in 2020.

The local economy continued to improve during the fiscal year, until the emergency shelter-in-place orders were enacted by the Governor, which essentially ceased all economic activity, with the exception of essential activities. The City expects economic activity to resume shortly after the beginning of the next fiscal year. This includes the construction of additional homes by developers. Due to the age of the infrastructure system for its water and sewer services, the City expects to make significant investments in the upgrading of those systems.

In September 2020, the City adopted its 2020-21 fiscal budget and expects to watch its spending closely as the City continues to rebound financially. The General Fund portion of the budget appropriated \$3.7 million as the City balances the increasing needs and costs for staffing with new revenue as the demand for City Services continues to grow.

The City continued to review and update various fees in fiscal year 2019-20. The City's development impact fees were updated in 2010-2011. Fee adjustments are necessary to ensure that the costs of providing services are matched closer to the fee revenues charged for providing these services.

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the City Finance Department, 9955 Live Oak Blvd, Live Oak, California 95953, (530) 695-2112.

Note 1: Summary of Significant Accounting Policies

a. Financial Reporting Entity

The City operates under a Council form of government and provides the following services: public safety, highways and streets, health and sanitation, culture-recreation, public improvements, planning and zoning, general administrative services, and water and sewer.

Generally accepted accounting principles require government financial statements to include the primary government and its component units. Component units of a governmental entity are legally separate entities for which the primary government is considered to be financially accountable and for which the nature and significance of their relationship with the primary government are such that exclusion would cause the combined financial statements to be misleading. The primary government is considered to be financially accountable if it appoints a majority of an organization's governing body and is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to or impose specific financial burdens on the primary government.

Reporting for component units on the City's financial statements can be blended or discretely presented. Blended component units are, although legally separate entities, in substance part of the City's operations and, therefore, data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, would be reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government.

For financial reporting purposes, the City's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the City Council. Separate financial statements for the City of Live Oak Public Improvement Corporation are not issued.

Blended Component Units

City of Live Oak Public Improvement Corporation (Corporation)

The Corporation, established August 18, 1987, was formed to assist the City in the financing of real or personal property for the benefit of the City of Live Oak. The Corporation is the lessor for the City's Farmers Home Administration Loan, the City's 2004 Certificates of Participation, and the City's 2003 Certificates of Participation and makes debt service payments on behalf of the City. The City Council is the governing body of the Corporation and because its financial and operational relationship with the City is closely integrated, the Corporation's loans payable are reported in the governmental activities, certificates of participation in the water and sewer enterprise funds and certificates of participation in the sewer enterprise fund financial statements.

Note 1: Summary of Significant Accounting Policies (Continued)

Joint Agencies

The City is a participant in Small Cities Organized Risk Effort (SCORE), the purpose of which is for member-cities to share in the administrative costs of providing liability and workers' compensation insurance. SCORE is composed of 19 member-cities and is governed by a board of directors appointed by the member-cities. Complete financial information can be obtained from the SCORE offices in San Francisco, California. The City is not financially accountable for this organization and therefore it is not a component unit under Statement Nos. 14, 39 and 61 of the Governmental Accounting Standards Board.

The City is a participant in California Joint Powers Risk Management Authority (CJPRMA), the purpose of which is to provide excess coverage for its members. The CJPRMA is governed by a board of directors representing its member-cities. Complete financial information can be obtained from the claims administrator at 3201 Doolan Road, Suite 285, Livermore, California 94551. The City is not financially accountable for this organization and therefore it is not a component unit under Statement Nos. 14, 39 and 61 of the Governmental Accounting Standards Board.

b. Basis of Presentation

The statement of net position and statement of activities display information on all of the nonfiduciary activities of the City and its blended component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the City. Governmental activities, which are normally supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for each different identifiable activity of the City's business-type activities and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and; therefore, are clearly identifiable to a particular function. Program revenues include 1) charges paid by the recipients of goods and services offered by the program, 2) operating grants and contributions and 3) capital grants and contributions. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide information about the City's funds, including blended component units. Funds are organized into three major categories: governmental, proprietary and fiduciary. The emphasis is placed on major funds within the governmental and proprietary categories; each is displayed in a separate column. All remaining governmental and enterprise funds are separately aggregated and reported as nonmajor funds.

Note 1: Summary of Significant Accounting Policies (Continued)

The City reports the following major governmental funds:

- The General fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the City that are not accounted for through other funds. For the City, the General Fund includes such activities as public safety, community development, and recreation and culture services.
- The Program Income fund is a special revenue fund used to account for revenues and expenditures related to HOME, CDBG and EDBG program income. Funding comes primarily from program income from federal grants.
- The 16-HOME-11532 fund is a special revenue fund used to account for HOME grant funds used for the Kristen Court Phase 2 project.
- The Capital Improvement Project fund is a capital projects fund used to account for revenues and expenditures for capital projects.

The City reports the following proprietary funds:

- The Water fund is an enterprise fund used to account for activity related to providing customers with water service and billing for services provided by the City.
- The Sewer fund is an enterprise fund used to account for activity related to providing customers with sewer service and billing for services provided by the City.

The City reports the following additional fund types:

• The Private Purpose Trust fund accounts for property held under other trust arrangement under which principal and income benefit individuals, private organizations, or other governments. Private purpose trust funds include the Successor Agency to the Redevelopment Agency of the City of Live Oak.

c. Basis of Accounting and Measurement Focus

The government-wide and proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales tax, grants, entitlements, and donations. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Note 1: Summary of Significant Accounting Policies (Continued)

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants and charges for services are considered susceptible to accrual and are recognized as revenue when their receipt occurs within sixty days after the end of the fiscal year. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to compensated absences, and claims and judgments are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in the various functions of the governmental funds. Proceeds of governmental long-term debt and acquisitions under capital leases are reported as other financing sources.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Fiduciary funds include trust funds and agency funds. The City's private purpose trust fund is recorded using the economic resources measurement focus and the accrual basis of accounting.

d. Non-Current Governmental Assets/Liabilities

Non-current governmental assets and liabilities, such as capital assets and long-term liabilities, are reported in the governmental activities column in the government-wide statement of net position.

e. Cash and Cash Equivalents

For purposes of the accompanying Statement of Cash Flows, the City considers all highly liquid investments with an original maturity of three months or less and amounts held in the City's investment pool to be cash and cash equivalents.

f. Investments

The City pools cash and investments of all funds. Each fund's share in this pool is displayed in the accompanying financial statements as cash and investments.

Investment transactions are recorded on the trade date. The fair value of investments is determined annually. Investments in nonparticipating interest-earning investment contracts are reported at cost; short term investments are reported at amortized cost, investments in Local Agency Investment Fund, an external pool, are reported at amortized cost which approximates fair value, and the fair value of all other investments are obtained by using quotations obtained from independent published sources or by the safekeeping institution. The fair value represents the amount the City could reasonably expect to receive for an investment in a current sale between a willing buyer and seller.

Note 1: Summary of Significant Accounting Policies (Continued)

Income from pooled investments is allocated to the individual funds based on the fund or participant's average daily cash balance at quarter end in relation to the total pool investments. Income from non-pooled investments is recorded based on the specific investments held by the fund.

g. Receivables

Receivables for governmental activities consist mainly of accounts, interest, taxes, intergovernmental, and notes and loans. Management believes its receivables are fully collectible and, accordingly, no allowance for doubtful accounts is required.

Receivables for enterprise funds consist mainly of user fees and interest. Management records an allowance for doubtful accounts based on actual customer balances that the City Council has approved to be written off. At June 30, 2020, the allowance for doubtful accounts was \$2,909.

h. Prepaid Items

Payments made for services that will benefit periods beyond June 30, 2020, are recorded as prepaid items under both the accrual and modified accrual basis of accounting. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased. The City records both prepaid costs for expenditures/expenses paid for services that will benefit future periods and prepaid insurance for the net investment in a joint powers self-insurance agency.

i. Capital Assets

Capital assets, including public domain (infrastructure such as roads, bridges, sidewalks, sewer and similar items) are defined by the City as assets with a cost greater than \$5,000 \$10,000 for enterprise funds) for assets other than infrastructure and \$75,000 for infrastructure and an estimated useful life of more than two years. Capital assets are recorded at historical cost or estimated historical cost if actual historical cost is unavailable. Contributed capital assets are recorded at their acquisition value at the date of donation.

Capital assets used in operations are depreciated or amortized using the straight-line method over the assets estimated useful life in the government-wide financial statements. The range of estimated useful lives by type of asset is as follows:

Depreciable Asset	Years
Equipment	3-25
Structures and improvements	5-50
Infrastructure	20-75

Note 1: Summary of Significant Accounting Policies (Continued)

Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

j. Property Tax

Sutter County assesses properties, bills, collects, and distributes property taxes to the City. The County remits the entire amount levied and handles all delinquencies, retaining interest and penalties.

Property taxes are levied on a fiscal year (July 1 - June 30). The secured property tax assessments are due on November 1 and February 1 and become delinquent after December 10 and April 10, respectively. The unsecured property tax assessments are due on August 1 and become delinquent after August 31. Property taxes become a lien on the property effective January 1 of the preceding year.

The City recognizes property taxes when the individual installments are due, provided they are collected within 60 days after year-end.

k. Interfund Transactions

Interfund transactions are reflected as either loans, services provided or used, reimbursements or transfers.

Loans reported as receivables and payables are referred to as either "due to/from other funds" (i.e. the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans) as appropriate and are subject to elimination upon consolidation. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as "internal balances." Advances between funds, as reported in the fund financial statements, are offset by a non-spendable fund balance account in applicable governmental funds to indicate that they are not in spendable form.

Services provided or used, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. These services provide information on the net cost of each government function and therefore are not eliminated in the process of preparing the government-wide statement of activities.

Reimbursements occur when the funds responsible for particular expenditures or expenses repay the funds that initially paid for them. Such reimbursements are reflected as expenditures or expenses in the reimbursing fund and reductions to expenditures or expenses in the reimbursed fund.

All other interfund transactions are treated as transfers. Transfers between funds are netted as part of the reconciliation to the government-wide presentation.

Note 1: Summary of Significant Accounting Policies (Continued)

I. Unearned Revenue

Under the accrual and modified accrual basis of accounting, revenue may be recognized only when it is earned. When assets are recognized in connection with a transaction before the earnings process is complete, those assets are offset by a corresponding liability for unearned revenue.

m. Compensated Absences

Compensated absences comprise unused vacation leave, vested sick pay and certain compensated time off, which is paid at the date of termination from City employment. All compensated pay is accrued when incurred in the government-wide and proprietary fund financial statements. For all governmental funds, termination pay-outs expected to be paid out of current financial resources are recorded as fund liabilities. Compensated absences recorded within Governmental Activities are expected to be primarily liquidated by the General Fund as they become due. Amounts recorded within Business-type Activities are expected to be liquidated from the both the Water and Sewer funds, as appropriate.

n. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's California Public Employees' Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

o. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then. The government has two items which qualify for reporting in this category. These items relate to outflows from changes in the net pension liability and the net OPEB asset and are reportable on the Statement of Net Position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time. The government has three types of items which qualify for reporting in this category. One item, unavailable revenue, is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues for receivables that have not been received within the period of availability. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The second and third items relate to inflows from changes in the net pension liability and net OPEB asset and are reportable on the Statement of Net Position.

Note 1: Summary of Significant Accounting Policies (Continued)

p. Estimates

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

q. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB asset, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the City's plan (OPEB Plan), the assets of which are held by the California Employers' Retiree Benefit Trust (CERBT), and additions to/deductions from the OPEB Plan's fiduciary net position have been determined by an independent actuary. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

r. Net Position

Net position is the excess of all the City's assets and deferred outflows of resources over all its liabilities and deferred inflows of resources, regardless of fund. Net position is divided into three categories. These categories apply only to net position which is determined only for proprietary funds and at the government-wide level, and are described below:

- **Net investment in capital assets** describes the portion of net position which is represented by the current net book value of the capital assets, less the outstanding balance of debt issued to finance these assets.
- Restricted net position amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation. Restrictions may effectively be changed or lifted only with the consent of resource providers
- Unrestricted net position all other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Net Position Restricted by Enabling Legislation

The government-wide Statement of Net Position reports \$4,701,011 of restricted net position, of which \$2,142,033 is restricted by enabling legislation.

Net Position Flow Assumption

When a government funds outlays for a particular purpose from both restricted and unrestricted resources, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted net position are available, it is considered that restricted resources are used first, followed by the unrestricted resources.

Note 1: Summary of Significant Accounting Policies (Continued)

s. Fund Balance

As prescribed by GASB Statement No. 54, governmental funds report fund balance in classifications based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. As of June 30, 2020, fund balance for governmental funds is made up of the following:

- Nonspendable fund balance amounts that cannot be spent because they are
 either: (a) not in spendable form, or (b) legally or contractually required to be
 maintained intact. The "not in spendable form" criterion includes items that are not
 expected to be converted to cash, for example: inventories and prepaid amounts.
- Restricted fund balance amounts with constraints placed on their use that are
 either: (a) externally imposed by creditors, grantors, contributors, or laws or
 regulations of other governments; or (b) imposed by law through constitutional
 provisions or enabling legislation. Restrictions may effectively be changed or lifted
 only with the consent of resource providers.
- Committed fund balance amounts that can only be used for the specific purposes determined by formal action of the City's highest level of decision-making authority. The City Council is the highest level of decision-making authority for the City that can, by adoption of an ordinance commit fund balance. Once adopted, the limitation imposed remains in place until a similar action is taken to remove or revise the limitation. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- Assigned fund balance amounts that are constrained by the City's intent to be
 used for specific purposes. The intent can be established at either the highest level
 of decision-making, or by a body or an official designated for that purpose.
- Unassigned fund balance the residual classification for the City's General fund
 that includes all amounts not contained in the other classifications. In other funds,
 the unassigned classification is used only if expenditures incurred for specific
 purposes exceed the amounts restricted, committed, or assigned to those
 purposes.

Fund Balance Flow Assumption

When a government funds outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance), a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted fund balance are available, it is considered that restricted fund balance is depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Note 1: Summary of Significant Accounting Policies (Continued)

t. New GASB Pronouncements

In FY 2019-20, the City implemented GASB Statement No. 95 – *Postponement of Effective Dates of Certain Authoritative Guidance* – The following pronouncements have been postponed as a temporary relieve to governments and other stakeholders in light of the COVID-19 pandemic and the new effective date are reflected in the following fiscal years:

- GASB 83 Certain Assets Retirement Obligations The requirements of this statement are effective for reporting periods beginning on or after June 15, 2020.
- GASB 84 Fiduciary Activities The requirements of this statement are effective for reporting periods beginning after December 15, 2019.
- GASB 87 *Leases* The requirements of this statement are effective for reporting periods beginning on or after June 15, 2021.
- GASB 89 Accounting for Interest Cost Incurred before the End of a Construction Period - The requirements of this statement are effective for reporting periods beginning on or after December 15, 2020.
- GASB 91 Conduit Debt Obligations The requirements of this statement are effective for reporting periods beginning on or after December 15, 2021.
- GASB 92 Omnibus 2020 The requirements of this statement are effective for reporting periods beginning on or after June 15, 2021.
- GASB 93 Replacement of Interbank Offered Rates The requirements of this statement are effective for reporting periods beginning on or after June 15, 2021.

Note 2: Stewardship, Compliance and Accountability

a. Deficit Fund Balance/Net Position

The following major special revenue fund had a deficit fund balance:

The 16-HOME-11532 fund had a fund balance deficit of \$9,102, which is expected to be eliminated in the future through grant reimbursements.

The following major capital projects fund had a deficit fund balance:

The Capital Improvement Project fund had a fund balance deficit of \$230,300, which is expected to be eliminated in the future through grant reimbursements and transfers in from other funds.

The following non-major special revenue funds had a deficit fund balance:

The 14-HOME-9274 fund had a fund balance deficit of \$3,945, which is expected to be eliminated in the future through grant reimbursements.

The Mello Roos CFD 2004-1 Street Lighting fund had a fund balance deficit of \$21,223, which is expected to be eliminated in the future through special assessment revenues.

The 13-CDBG-8933 Skate Park fund had a fund balance deficit of \$430,713, which is expected to be eliminated in the future through grant reimbursements.

Note 2: Stewardship, Compliance and Accountability

The 16-HOME-11380 fund had a fund balance deficit of \$32,256, which is expected to be eliminated in the future through grant reimbursements.

The CDBG PI Waiver Water Main fund had a fund balance deficit of \$227,987, which is expected to be eliminated in the future through grant reimbursements.

Note 3: Cash and Investments

a. Financial Statement Presentation

As of June 30, 2020, the City's cash and investments are reported in the financial statements as follows:

Governmental activities	\$ 7,867,143
Business-Type activities	4,935,381
Private Purpose Trust	29,376
Total Cash and Investments	\$ 12,831,900

As of June 30, 2020, the City's cash and investments consisted of the following:

Cash:	
Cash on hand	\$ 1,020
Deposits (less outstanding checks)	3,407,723
Total Cash	 3,408,743
Investments:	
Certificate of Deposit	31,000
LAIF	8,813,733
Money Market Funds	578,424
Total Investments	9,423,157
Total Cash and Investments	\$ 12,831,900

Note 3: Cash and Investments

b. Cash

At year end, the carrying amount of the City's cash deposits (including amount in checking accounts and money market accounts) was \$3,407,723 and the bank balance was \$3,700,353. The difference between the bank balance and the carrying amount represents outstanding checks and deposits in transit. In addition, the City had cash on hand of \$1,020.

Custodial Credit Risk for Deposits - Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or collateral securities that are in the possession of an outside party. The City's investment policy requires that deposits in banks must meet the requirements of the California Government Code. Under this code, deposits of more than \$250,000 must be collateralized at 105 percent to 150 percent of the value of the deposit to guarantee the safety of the public funds. The first \$250,000 of the City's deposits are insured by the Federal Deposit Insurance Corporation (FDIC). Deposits more than the \$250,000 insured amount are collateralized.

c. Investments

Pursuant to Section 53646 of the Government Code, the City prepares an investment policy annually and presents it to the City Council for review and approval. The investment policy provides the basis for the management of a prudent, conservative investment program. Funds are invested to provide the maximum security of principal with secondary emphasis on achieving the highest return, while meeting daily cash flow needs. All investments are made in accordance with the Government Code and, in general, the investment policy is more restrictive than state law.

Under the provisions of the City's investment policy the City may invest or deposit in the following:

			Maximum
	Maximum	Minimum	Percentage of
Authorized Investment Type	Maturity	Credit Quality	Portfolio
U.S. Government Obligations	5 years	None	Unlimited
U.S. Government Agencies and Instrumentalities Securities	5 years	None	Unlimited
Repurchase Agreements	1 year	None	Unlimited
Banker's Acceptances	180 days	None	40%
Commercial Paper	270 days	Α	30%
Medium-Term Corporate Notes	5 years	Α	30%
Certificates of Deposit	5 years	None	Unlimited
Negotiable Certificates of Deposit	5 years	AA	30%
Local Agency Investment Fund (LAIF)	N/A	None	\$65 million
California Pooled Investment Authority	N/A	None	Unlimited
Money Market Mutual Funds	N/A	None	10%

Fair Value Measurements - The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

Level 1: Quoted prices for identical investments in active markets;

Level 2: Observable inputs other than quoted market prices; and,

Level 3: Unobservable inputs.

Note 3: Cash and Investments (Continued)

The City's position in external investment pools is, in itself, regarded as a type of investment, and looking through to the underlying investments of the pool is not appropriate. Therefore, the City's investment in external investment pools is not recognized in the three-tiered fair value hierarchy described above.

At June 30, 2020, the City had the following recurring fair value measurements.

					Level		
Investment Type	Fair Va	ue	1		2	3	
Certificate of Deposit	\$ 31,	000	\$	-	\$ 31,000	\$	_
Uncategorized							
Money Market Mutual Funds	578,	424					
Local Agency Investment Funds (LAIF)	8,813	733					
Total Investments Measured at Amortized Cost	9,392	157					
Total Investments	\$ 9,423	157					

Interest Rate Risk - Interest rate risk is the risk of loss due to the fair value of an investment falling due to interest rates rising. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. To limit exposure to fair value losses resulting from increases in interest rates, the City's investment policy limits investment maturities to a term appropriate to the need for funds so as to permit the City to meet all projected obligations. Any investments that mature more than five years from the date of purchase cannot occur without prior approval of the City Council.

At June 30, 2020, the City had the following investments all of which had a maturity of 5 years or less:

		 Maturities	
	Interest		Fair
Investment Type	Rates	0-1 Year	Value
Certificate of Deposit	Variable	\$ 31,000	\$ 31,000
Local Agency Investment Fund (LAIF)	Variable	8,813,733	8,813,733
Money Market Funds	Variable	578,424	 578,424
Total Investments		\$ 9,423,157	\$ 9,423,157

Credit Risk - Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City's investment policy sets specific parameters by type of investment to be met at the time of purchase. As of June 30, 2020, the City investments were all pooled with the State of California Local Agency Investment Fund which is not rated by a nationally recognized statistical rating organization.

Custodial Credit Risk - Custodial credit risk for investments is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover its deposits or collateral securities that are in the possession of an outside party. To mitigate the custodial credit risk the City's investment policy requires that all of its managed investments be held in safekeeping by a third-party bank trust department.

Note 3: Cash and Investments (Continued)

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer of securities. When investments are concentrated in one issuer, this concentration presents a heightened risk of potential loss. The City's investment policy contains limitations on the amount that can be invested in any one issuer. As of June 30, 2020, the City investments were mostly pooled with the State of California Local Agency Investment Fund which holds a diversified portfolio of high-quality investments.

d. Investment in External Investment Pools

The City of Live Oak maintains an investment in the State of California Local Agency Investment Fund (LAIF), managed by the State Treasurer. This fund is not registered with the Securities and Exchange Commission as an investment company but is required to invest according to California State Code. The Local Investment Advisory Board (Board) has oversight responsibility for LAIF. The Board consists of five members as designated by State Statute. At June 30, 2020, the City's investment in LAIF valued at amortized cost was \$8,813,733 and is the same as the value of the pool shares. There are no restrictions on withdrawal of funds. The total amount invested by all public agencies in LAIF on that day was \$101 billion.

Note 4: Capital Assets

Capital assets activity for the year ended June 30, 2020, was as follows:

Governmental Activities

Governmental activities	Balance at June 30, 2019	CIP Transfers	Additions	Retirements	Balance at June 30, 2020
Capital assets not being depreciated

Security gate	11,261
P St. Lift Station	8,476
Total Sewer Enterprise	396,657
Total Business-type Activities	\$ 3,347,105

Note 5: Interfund Transactions

Due To/From Other Funds

During the course of operations, transactions occur between funds to account for goods received or services rendered. These receivables and payables are classified as due from or due to other funds. In addition, when funds overdraw their share of pooled cash, the receivables and payables are also classified as due from or due to other funds. The balance of \$45,000 due to the Capital Improvement Project Fund from the other governmental funds is not scheduled to be collected in the subsequent year. The following are due to and due from balances as of June 30, 2020:

Due from other funds	Due to other funds	 Amount
General Fund	Other Governmental Funds	\$ 665,980
General Fund	Capital Improvement Project	188,407
General Fund	16-HOME-11532	9,102
General Fund	Water	2,204
Capital Improvement Project	Other Governmental Funds	45,000
		\$ 910,693

Note 5: Interfund Transactions (Continued)

Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various City operations and re-allocations of special revenues. The following are the interfund transfers for fiscal year ended June 30, 2020:

Transfers In	Transfer Out	 Amount
Capital Improvement Project	Other Governmental Funds	41,023
Other Governmental Funds	Capital Improvement Project	 33,412
		\$ 74,435

Additionally, a transfer of capital assets was made by governmental activities to business-type activities in the amount of \$1,417,165.

Note 6: Loans Receivable

At June 30, 2020, the City had the following loans receivable, including principal and accrued interest:

	 (Govern	mental Activitie	ntal Activities			
Loan Type	 Principal		Interest		Total		
CDBG Housing Rehab	\$ 460,976	\$	112,567	\$	573,543

HOME Housing New Construction	12,000,000		1,053,298		13,053,298		
HOME Program Income First Time Home Buyer	131,000		55,530		186,530		
HOME Program Income Owner Occupied Rehab	55,483		14,261		69,744		
City Loan First Time Home Buyer	75,000		28,658		103,658		
Impact Fees Housing New Construction	 667,349		38,615		705,964		
Total	\$ 16,221,117	\$	1,730,763	\$	17,951,880		

A total of \$17,951,880 was recorded as loans receivable at June 30, 2020. These represent low interest notes principal portion to finance multi-family and single-family construction and rehabilitation projects, home buyer assistance for low income families, as well as business start-up costs. Loan terms are 15 to 55 years with interest rates at 0.00 to 5.00 percent. The primary source of funding for these loans comes from grants from the federal Community Development Block Grant (CDBG) and Home Investment Partnerships (HOME) programs. The CDBG and HOME grants contain monitoring requirements to ensure grant compliance. These requirements are reflected in the loan agreements. Due to the terms of the loans, offsetting deferred inflows of resources of \$17,951,880 have been established in the Governmental Funds Balance Sheet for the housing and business loan principal and interest payments.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2020

Note 7: Long-Term Liabilities

Debt Service Requirements

The following is a summary of changes in long-term liabilities for the year ended June 30, 2020:

	Balance June 30, 2019 Retirements			Jui	Balance ne 30, 2020	Amounts Due Within One Year

For business-type activities, all debt is accounted for in the proprietary fund where the liability occurred.

Note 7: Long-Term Liabilities (Continued)

Individual issues of debt payable outstanding at June 30, 2020, are as follows:

Governmental Activities

Direct borrowing loan:

City of Yuba City loan dated, August 2012 in the amount of \$528,825, payable in semi-annual installments of \$26,156 to \$26,728 with an interest rate of 0.228% and a maturity of September 1, 2023. The loan was used to provide funding to the Sutter Animal Services Authority. In the event of default, the City will forfeit all rights and interest in the Animal Control Facility.

Total Loans 211,530

211,530

406,281

4,599,983

780,000

1,000,000

Direct borrowing capital lease:

The City entered into a lease purchase agreement with US Bancorp Government Leasing and Finance Inc. in January 2018. Using the lease proceeds, the City purchased a fire engine from Ferrara Rev Group for \$549,863. The fire engine was delivered to the City in September 2018 and went into service at that time. The lease arrangement goes out seven years at an interest rate of 3.57% with annual payments commencing in January 2019. The lease is an obligation of the City's General Fund and is accounted for as a long term general liability of the City.

Total Capital Leases 406,281

Total Governmental Activities \$ 617,811

Business-Type Activities

Direct borrowing loan:

State Department of Water Resources loan, dated February 26, 2010 in the amount of \$6,040,511, payable in annual installments of \$175,812 to \$231,656 with an interest rate of 1.00% and maturity of June 30, 2042. The loan was used to finance wastewater treatment plant upgrade project.

Total Loans 4,599,983

Private Placement Certificates of Participation:

2003 Certificates of Participation, dated January 1, 2004 in the amount of \$1,269,025, payable in annual installments of \$30,000 to \$39,025 with an interest rate of 4.25% and maturity of July 1, 2043. The certificates were used to finance a wastewater improvement project. The certificates are backed by a pledge of net revenues of the wastewater fund.

2005 Certificates of Participation, dated January 1, 2006 in the amount of \$1,441,000, payable in annual installments of \$1,000 to \$40,000 with an interest rate of 4.25% and maturity of July 1, 2044. The certificates were used to finance a water meter installation and improvement project. The certificates are backed by a pledge of net revenues of the water fund.

Total Certificates of Participation 1,780,000

Total Business-Type Activities \$ 6,379,983

Note 7: Long-Term Liabilities (Continued)

As of June 30, 2020, the City was not in compliance with the rate covenant for their 2005 Water Fund COPs. The target coverage ratio of operating revenues to operating expenses is 110% and the City had a ratio of 85.81%.

The following are schedules of debt payment requirements of governmental activities and business-type activities to maturity for long-term debt.

Fund Balance Policy

The City Council adopted the City of Live Oak Fund Balance Policy in 2011. The policy establishes procedures for reporting fund balance classifications, establishes prudent reserve requirements and establishes a hierarchy of fund balance expenditures. The policy also provides for a measure of financial protection for the City against unforeseen circumstances and to comply with GASB Statement No. 54.

Included in the City's adopted budget each year are the City's Budget Policies. The Budget Policies state that the City will maintain a minimum General Fund general reserve equal to 30 percent of the General Fund's appropriations. This is considered Live Oak's "Healthy Cities Reserve".

Note 10: Pension Plan

a. General Information about the Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the City of Live Oak Miscellaneous cost-sharing multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plan are established by State statute and Local Government resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website.

At the measurement date, the City had 15 employees participating in the Miscellaneous "Classic" Plan and 11 employees participating in the Miscellaneous PEPRA Plan.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full-time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at the measurement date, are summarized as follows:

		PEPRA
	Miscellaneous	Miscellaneous
	Rate Plan	Rate Plan
	Prior to	On or after
Hire date	January 1, 2013*	January 1, 2013
Benefit formula	2.7% @ 55	2% @ 62
Benefit vesting schedule	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life
Retirement age	50 - 67	52 - 67
Monthly benefits, as a % of eligible compensation	2.000% - 2.700%	1.000% - 2.500%
Required employee contribution rates	8.000%	6.250%
Required normal employer contribution rates	12.212%	6.842%
Required employer payment of unfunded liability	\$151,922	\$1,369
*Closed to new member entrants		

Note 10: Pension Plan (Continued)

Contribution Description

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

In regard to the "Classic" Plan employees, 7 of them were employed by the City prior to 2014 and the City pays the employee portion of the contributions for these individuals as of the balance sheet date.

The contributions that will be recognized as a reduction to the net pension liability for each plan in fiscal year 2021 are \$310,939.

b. Pension Liabilities, Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2020, the City reported a liability of \$1,837,496 for its proportionate share of the net pension liability of the Plan. The City's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2019, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018 rolled forward to June 30, 2019 using standard update procedures. The City's proportion of the net pension liability was based on a projection of the City's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined. The City's proportionate share of the net pension liability for the Miscellaneous risk pool rate plan was 0.04589%, which was a decrease of 0.00028% from its proportion measured as of June 30, 2018.

Note 10: Pension Plan (Continued)

For the year ended June 30, 2020, the City recognized pension expense of \$453,012. At June 30, 2020, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Defe	Deferred Outflows of Resources		red Inflows of esources
Pension contributions made subsequent to measurement date	\$	310,939	\$	-
Changes in assumptions		87,620		31,061
Difference between expected and actual experiences		127,622		9,888
Differences between actual contributions and the proportionate share of contributions		21,698		66,504
Net difference between projected and actual earnings on pension plan investments		-		32,125
Adjustment due to difference in proportions		53,921		
Total	\$	601,800	\$	139,578

\$310,939 reported as deferred outflows of resources related to contributions made subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized as pension expense as follows:

Measurement Period Ended		Deferred
June 30	Outfl	ows/(Inflows)
2020	\$	158,818
2021		(25,042)
2022		11,015
2023		6,492
	\$	151,283

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2019, (the measurement date), the total pension liability was determined by rolling forward the June 30, 2018, total pension liability. The June 30, 2018 and the June 30, 2019, total pension liabilities were based on the following actuarial methods and assumptions:

Note 10: Pension Plan (Continued)

Actuarial Cost Method Entry Age Normal

Actuarial Assumptions

Discount Rate 7.15% Inflation 2.50%

Salary Increases Varies by Entry Age and Service

Mortality Rate Table (1) Derived using CalPERS' Membership Data

for all Funds

Post Retirement Benefit Contract COLA up to 2.00% until

Increase Purchasing Power Protection Allowance

Floor on Purchasing Power applies, 2.50 %

thereafter

The mortality table used in the June 30, 2018 valuation was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using the Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website at: https://www.calpers.ca.gov/docs/forms-publications/calpers-experience-study-2017.pdf

Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. To determine whether the municipal bond rate should be used in the calculation of the discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. The tests revealed the assets would not run out. Therefore, the current 7.15 percent discount rate is appropriate, and the use of the municipal bond rate calculation is not deemed necessary. The long-term expected discount rate of 7.15 percent is applied to all plans in the Public Employees' Retirement Fund (PERF). The cash flows used in the testing were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS website under the GASB 68 section.

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

Note 10: Pension Plan (Continued)

In determining the long-term expected rate of return, staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The expected real rates of return by asset class are as followed:

	Assumed Asset	Real Return	Real Return
Asset Class	Allocation	Years 1 - 10 (1)	Years 11+ (2)
Global Equity	50.0%	4.80%	5.98%
Global Fixed Income	28.0	1.00	2.62
Inflation Assets	0.0	0.77	1.81
Private Equity	8.0	6.30	7.23
Real Assets	13.0	3.75	4.93
Liquidity	1.0	0%	(0.92)
	100%		

- (1) An expected inflation of 2.00% used for this period.
- (2) An expected inflation of 2.92% used for this period.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15 percent) or 1 percentage-point higher (8.15 percent) than the current rate:

Disc			t Discount Rate (7.15%)	Discount Rate +1% (8.15%)			
\$	2,814,017	\$	1,837,496	\$	1,031,447		

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Note 11: Other Post-Employment Benefits (OPEB)

Plan Description

The City contributes to California Public Employees Retirement System (CalPERS), an agent multiple-employer defined benefit postemployment healthcare plan administrator ("the Retiree Health Plan"). An employee is eligible for lifetime medical benefits under the Plan, along with his/her spouse at the time of retirement, if he or she retires from the City under CalPERS. The retiree receives a benefit of \$128 per month from the City. Payments cease at age 65 when the retiree is eligible for Medicare.

Employees Covered

As of the June 30, 2019 actuarial valuation, the following current and former employees were covered by the benefit terms under the Retiree Health Plan:

Active		24
Inactive employees or beneficiaries currently receiving benefits		6
Inactive employees entitled to, but not yet receiving benefits		7
	Total	37

Contributions

The Retiree Health Plan and its contribution requirements are established by Memoranda of Understanding with the applicable employee bargaining units and may be amended by agreements between the City and the bargaining units. The annual contribution is based on the actuarially determined contribution. The City's contributions were \$10,991 for the fiscal year, which will be recognized as an increase to the net OPEB asset.

Note 11: Other Post-Employment Benefits (OPEB) (Continued)

Net OPEB Asset

The City's net OPEB asset was measured as of June 30, 2019 and the total OPEB liability used to calculate the net OPEB asset was determined by an actuarial valuation dated June 30, 2019 to determine the June 30, 2019 total OPEB liability, based on the following actuarial methods and assumptions:

Autuanai Assumptions	Actuarial	Assum	ptions
----------------------	-----------	-------	--------

Contribution Policy Pre-funded through CERBT with Strategy 1

asset allocation

l and tarm

Municipal Bond Rate N/A

Participation at Retirement 50% if active medical coverage

0% if waived

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-term
	Target	expected real
Asset Class	Allocation	rate of return
Global Equity	59.00%	4.82%
Fixed Income	25.00%	1.47%
TIPS	5.00%	1.29%
Commodities	3.00%	0.84%
REITs	8.00%	3.76%
Total	100.00%	

Note 11: Other Post-Employment Benefits (OPEB) (Continued)

Discount Rate

The discount rate used to measure the total OPEB liability was 6.75 percent. The projection of cash flows used to determine the discount rate assumed that City contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in the Net OPEB Asset

The changes in the net OPEB asset for the Retiree Health Plan are as follows:

	Increase(Decrease)						
	Total OPEB Liability		Plan Fiduciary Net Position			Net OPEB (Asset)	
Balance at June 30, 2019 (measurement date 6/30/2018)	\$	280,939	\$	396,087	\$	(115,148)	
Changes recognized over the measurement period:							
Service Cost		24,941		-		24,941	
Actual vs. expected experience		(4,689)		-		(4,689)	
Assumption changes		(1,549)		-		(1,549)	
Interest		20,010		-		20,010	
Contributions - employer		-		18,875		(18,875)	
Net investment income		-		24,440		(24,440)	
Benefit payments		(18,875)		(18,875)		-	
Adminstrative expenses				(85)		85	
Net Changes		19,838		24,355		(4,517)	
Balance at June 30, 2020							
(measurement date 06/30/2019)	\$	300,777	\$	420,442	\$	(119,665)	

Sensitivity of the Net OPEB Asset to Changes in the Discount Rate

The following presents the net OPEB asset of the City if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2019:

				Current			
	1%	Decrease	Dis	count Rate	1%	6 Increase	
	(5.75%)		(6.75%)		(7.75%)		
Net OPEB Asset	\$	(79,431)	\$	(119,665)	\$	(152,795)	

Note 11: Other Post-Employment Benefits (OPEB) (Continued)

Sensitivity of the Net OPEB Asset to Changes in the Health Care Cost Trend Rates

The following presents the net OPEB asset of the City if it were calculated using health care cost trend rates that are one percentage point lower or one percentage point higher than the current rate, for measurement period ended June 30, 2019:

		Current Healthcare					
1% Decrease		Cost Trent Rates		1% Increase			
Net OPEB Asset	\$	(156,814)	\$	(119,665)	\$	(73,731)	

OPEB Plan Fiduciary Net Position

CalPERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained directly from the CalPERS website.

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2020, the City recognized OPEB expense of \$14,657 As of fiscal year ended June 30, 2020, the City reported deferred outflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
OPEB contributions subsequent to measurement date	\$	10,991	\$	-
Net difference between projected and actual earnings on OPEB plan investments		-		5,911
Changes in assumptions		-		1,381
Differences between expected and actual experience		-		4,179
Total	\$	10,991	\$	11,471

The \$10,991 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2019 measurement date will be recognized as an increase to the net OPEB asset during the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources related to OPEB will be recognized as OPEB expense as follows:

	D	Deferred		
Fiscal Year Ended June 30	Outflo	Outflows/(Inflows)		
2021	\$	(3,646)		
2022		(3,647)		
2023		(1,109)		
2024		(221)		
2025		(678)		
Thereafter		(2,170)		
	\$	(11,471)		

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2020

Note 12: Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disaster. The City has joined together with other municipalities to participate in Small Cities Organized Risk Effort (SCORE) for general liability, vehicle liability, and errors and omissions purposes. SCORE is a public entity risk pool which serves as a common risk management and insurance program for member cities. The City pays an annual premium to SCORE for its insurance coverage. The agreements with SCORE provide that they will be self-sustaining through member premiums and will reinsure through commercial companies for excess coverage.

The City continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance in any of the past three fiscal years.

Note 13: Redevelopment Successor Agency and City Note Receivable

The City of Live Oak established the Live Oak Redevelopment Agency and its only project area in 2006. The City and Redevelopment Agency entered into a cooperation agreement whereby the Agency intends to reimburse the City for costs associated to the formation of the Agency and its project area. The City incurred \$356,849 of formation costs and the cooperation agreement called for the amount to be reimbursed over a 10-year term with a 3 percent simple interest rate. Repayment was to be made from future redevelopment tax increment revenues.

In 2008 the City and surrounding region experienced a significant downturn in property values and the project area did not produce any tax increment revenue for the next three years. Therefore, no payments were made by the Redevelopment Agency to the City in that time frame. Due to the lack of tax increment, the Redevelopment Agency did not incur any further expenses on redevelopment functions other than meeting the ordinary compliance requirements.

In June 2011 the State of California passed legislation dissolving all redevelopment agencies including the Live Oak Redevelopment Agency. The State dissolution action was re-affirmed by the State Supreme Court in January 2012 resulting in the termination of all redevelopment activities and the dissolving of the Live Oak Redevelopment Agency. Upon its dissolution, the Redevelopment Agency had no assets and one liability (the City cooperation agreement).

The State dissolution action created the Live Oak Successor Agency whose sole purpose was to manage and/or resolve all redevelopment related assets and debts until 2017, at which time a County-wide entity will inherit such duties from that time forward. Recent processing and approval of the Successor Agency's "Recognized Obligation Payment Schedule" ("ROPS") indicates an amount of \$440,330 (includes interest charges) for the outstanding amount for the City cooperation agreement and \$7,500 for administrative costs. The City accounts for the activities of the Successor Agency as a Private-Purpose Trust Fund. The Successor Agency fund recorded a liability due to other government agencies of \$447,830 as an amount due to the City of Live Oak as of June 30, 2015. The Successor Agency Trust also recorded a special item - reinstatement of loan payable in the same amount.

Note 13: Redevelopment Successor Agency and City Note Receivable (Continued)

In fiscal year 2014-15, the City's General Fund recorded an asset for the receivable and related revenue in the amount of \$447,830 as an amount due from the Successor Agency Trust for the cooperation agreement associated with the formation costs. The General fund also recorded a special item - reinstatement of loan receivable in the same amount. This loan receivable is shown as a nonspendable in the fund balance of the General fund since the City expects the amount to be paid back over several years by the Successor Agency.

However, in November 2015, the State of California Department of Finance informed the City and its Redevelopment Successor Agency of its intention to dissolve the Successor Agency. Recently amended statutes indicate that any Successor Agency that has not been allocated property tax revenue prior to February 1, 2012, the Agency shall, no later than November 1, 2015 submit to the Oversight Board a request to formally dissolve the Agency.

The Agency received its first increment in August 2015, however, detail from the Sutter County Auditor-Controller indicates amounts provided to the Live Oak Redevelopment Successor Agency include apportionments of monies from prior years including money prior to February 1, 2012.

The action to dissolve the Successor Agency is still considered to be in dispute by the City. However, there is a significant probability that the City may not be able to reverse the State's action to dissolve the Successor Agency. Therefore, the City has chosen to restate the receivable to zero as of the balance sheet date.

Note 14: Other Information

a. Commitments

The following material construction commitments existed at June 30, 2020:

	Expenditures to									
Project Name		Contract Amount		date as of ne 30, 2020	Remaining Commitments					
Prop 84 Well #7	\$	2.388.798	\$	1.466.815	\$	921,983				
Pennington Rd East Rehab, 13-CDBG	*	1,173,718	Ψ	729,348	Ψ	444,370				

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the appreciable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

NOTES TO FINANCIAL STATEMENTS (CONTINUED) JUNE 30, 2020

Note 14: Other Information (Continued)

b. Development Agreements

KB Homes Development Agreement

In July 2017, the City of Live Oak and KB Homes agreed upon various arrangements for the prospective development. The 2017 agreement with KB Homes resolved previous reimbursement arrangements stemming from KB Homes incurring the costs of building the City's largest water storage facility in 2012. The 2017 agreement provides that the City not assess its water connection, sewer connection fees and general development impact fees upon the 97 prospective single family homes to be built by KB Homes in Pennington Ranch Phase IV. As of June 30, 2020, there are no financial effects upon the City stemming from the development arrangements with KB Homes.

Sutter County (Annexation and Sphere of Influence Development Arrangements with City)

In September 2008 the City of Live Oak and the County of Sutter agreed upon various arrangements for prospective development for land annexed by the City and for development governed by the County for properties within the City's sphere of influence. These arrangements include land use planning, property tax sharing, sales tax sharing, public safety services, development impact fees and regional transportation. The arrangements are memorialized in City Resolution 46-2008 and Sutter County Resolution 08-069.

At the end of each fiscal year, the Sutter County Auditor-Controller reconciles the property tax allocations subject to the development arrangements and distributes the adjusting amounts due to City and County. Any amounts due to the City for each fiscal year are shown as a receivable as of the balance sheet date in conformity with the City's revenue recognition practices.

At the end of each fiscal year, the City calculates the amount of sales tax due to the County based upon the agreed upon development arrangements. The sales taxes subject to the development arrangements are accounted for in the City's general Fund. As of June 30, 2020, the City recorded a liability of zero of sales tax due to the County of Sutter.

As of June 30, 2020, there are no financial effects upon the City stemming from the development arrangements with the County of Sutter other than the aforementioned amounts.

Note 14: Other Information (Continued)

c. Acquisition and Fee Deferral Loan Agreement Live Oak Pacific Associates (Kristen Court Apartments)

In November 2015, the City entered into an acquisition and fee deferral loan agreement with Live Oak Pacific Associates. The agreement deferred the payment of acquisition costs (\$293,0000) for a portion of land and certain development impact fees (\$374,349) of the Kristen Court Apartments. The City obtained two promissory notes (one for each amount) which mature in 55 years. The note bears a simple interest rate of three percent (3%) per year. Interest began accruing upon the completion of the construction in December 2016.

The loan agreement provides that interest payments be limited to a portion of "Residual Receipts" as prescribed with their annual accounting of operations. The City receives its first interest payment from the project in July 2018. Any unpaid interest over the life of the loan is due and payable at the maturity of the promissory notes. The City accounts for the receipt of the note receivable and unpaid interest as a revenue in the year it is received in the Fire Impact Fees and Storm Drain Connection fund.

The total outstanding balances by component related to this agreement were:

	 Principal	 Interest	 Total
Acquisition Note	\$ 293,000	\$ 31,988	\$ 324,988
Development Impact Fee Note (drainage)	94,349	10,458	104,807
Development Impact Fee Note (fire facilities)	280,000	31,037	311,037
Total	\$ 667,349	\$ 73,483	\$ 740,832

August 2019, the City entered into an agreement with Live Oak Pacific Associates II, in the amount of \$4,500,000 to provide for gap financing of a 24-unit rental housing development (Kristen Court II). The note bears a simple interest rate of three percent (3%) per year and matures in 55 years from the date of the project completion. The loan agreement provides that payments shall be made annually based on residual receipts with the first payment due, if any, on October 30, 2021. Payments shall be credited to accrued interest and then to principal in the 16-HOME-11532 fund. Total outstanding balances for the principal was \$4,500,000.

Note 15: Subsequent Events

On March 27, 2020, in response to the economic fallout of the Coronavirus pandemic in the United States, Congress passed the Coronavirus Aid, Relief, and Economic Security Act, also known as the CARES Act, which provided \$2.2 trillion in economic stimulus funding through a variety of channels. The State of California received a \$500 million allocation to provide cities which did not receive a direct federal allocation through the CARES Act. The City entered into an agreement with the State of California in July 2020 to receive their allocation of the CARES Act funding. The funding is to be received in 6 monthly installments of \$18,932, with the first installment received by the City in August 2020. The total amount of CARES Act funding to be received by the City is \$113,592. This funding was for the reimbursement of costs incurred by the City since the start of the pandemic.

The Pension Plan's (PERF-C) Fiduciary Net Position as a Percentage of the Total Pension Liability	79.82%	78.40%	74.06%	73.31%	75.26%	75.26%

Notes to Schedule:

<u>Benefit Changes:</u> The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2016. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes of Assumptions: In 2020, there were no changes. In 2019, demographic assumptions and inflation rates were changed in accordance with the CalPERS Experience Study and Review of Actuarial Assumptions December 2017. In 2018, the discount rate was reduced from 7.65 percent to 7.15 percent. In 2017, there were no changes. In 2016, amounts reported reflect an adjustment of the discount rate from 7.5 percent (net of administrative expense) to 7.65 percent (without a reduction for pension plan administrative expense.)

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED JUNE 30, 2020

Note 1: Budgetary Basis of Accounting

Formal budgetary integration is employed as a management control device during the year. The City presents a comparison of annual budgets to actual results for the City's General Fund and Special Revenue funds. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

The following procedures are performed by the City in establishing the budgetary data reflected in the financial statements:

- (1) In May of each year, the Finance Department is to submit to the City Council a recommended operating budget for the fiscal year commencing the following July 1. The operating budget includes recommended expenditures and estimated revenues.
- (2) Public hearings are to be conducted at City Hall to obtain taxpayer comments. Generally by the first of July, after adjustment as appropriate by the City Council, the budget is to be legally enacted through council motion.
- (3) Council approval is required for transfers between funds, or for an increase in total appropriations. Therefore, the level of budgetary responsibility is by total appropriations; however, for report purposes, this level has been expanded to a functional basis (General Government, Public Safety, etc.).
- (4) All unused appropriations for budgeted amounts lapse at the end of the year.

Annual appropriated budgets are not adopted for certain funds established to meet or satisfy a specific purpose. For the fiscal year ended June 30, 2020, the following funds did not have annual appropriated budgets.

14-HOME-9274
Developer Deposits
State Grant Fund
11-HOME-7661
16-HOME-11532
16-HOME-11380
17-CDBG-12011
CDBG PI Waiver Water Main

The City does not use encumbrance accounting under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation.

NONMAJOR SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for and report the proceeds of specific revenues that are restricted or committed to expenditure for specific purposes other than debt service or capital projects. Nonmajor special revenue funds used by the City are listed below:

14-HOME-9274

This fund is used to account for HOME grant revenues and expenditures.

Developer Deposits

The Developer Deposits fund is used to account for developer deposits.

Streets and Roads

The Streets and Roads fund is used to account for gas tax revenue allocations received from the State. Funds received are restricted to expenditures for street maintenance, traffic safety, and construction.

Traffic Safety

This fund is used to account for court fines collected on the City's account for moving violations.

COPS

This fund is used to account for special police revenue received under the Citizens Options for Public Safety for frontline law enforcement services.

Sidewalk Improvement

This fund is used to account for monies to be used for sidewalk improvements.

Street Lighting

This fund is used to account for monies to be used for various street lighting districts. This assessment district excludes property within Community Facilities District (CFD) 2004-1.

Mello Roos CFD 92-1

This fund is used to account for special assessment revenue received to finance the purchase, construction, expansion or rehabilitation of sites and structures for general government, police, fire, parks, recreation, streets, schools and other governmental facilities. The revenues received are shared with the Live Oak Unified School District receiving 2/3 of the annual assessments received.

Fire Benefit Assessment

This fund is used to account for special assessment revenue received for the purposes of fire protection services. This assessment district excludes property within CFD 2004-1.

Mello Roos CFD 2004-1 Fire

This fund is used to account for special assessment revenue received for the purposes of fire protection services.

NONMAJOR SPECIAL REVENUE FUNDS

Mello Roos CFD 2004-1 Police

This fund is used to account for special assessment revenue received for the purposes of police protection services.

Mello Roos CFD 2004-1 Animal Services

This fund is used to account for special assessment revenue received for the purposes of animal protection services.

Mello Roos CFD 2004-1 Street Lighting

This fund is used to account for special assessment revenue received for the purposes of street lighting services.

Mello Roos CFD 2004-1 Parks/Recreation/Pool

This fund is used to account for special assessment revenue received for the purposes of parks and pool maintenance and recreation programs.

Mello Roos CFD 2004-1 Storm Drain

This fund is used to account for special assessment revenue received for the purposes of storm drain maintenance and improvements.

Parks & Recreation Impact Fees

This fund is used to account for development impact fees received for the purposes of expansion and construction of parks and recreation facilities.

Community Center Impact Fees

This fund is used to account for development impact fees received for the purposes of expansion and construction of community centers.

Public Works Impact Fees

This fund is used to account for development impact fees received for the expansion and construction of public works/crop yard facilities and equipment.

General Government Impact Fees

This fund is used to account for development impact fees received for the expansion and construction of general government administration facilities and equipment.

Police Impact Fees

This fund is used to account for development impact fees received for the expansion and construction of public safety police facilities and equipment.

NONMAJOR SPECIAL REVENUE FUNDS

Fire Impact Fees

This fund is used to account for development impact fees received for the expansion and construction of public safety fire facilities and equipment.

Signal Impact Fees

This fund is used to account for development impact fees received for the expansion and construction of signals.

Flood Control Impact Fees

This fund is used to account for development impact fees received for the expansion and construction of storm drainage facilities.

State Grant

This fund is used to account for revenues and expenditures related to state grants.

Storm Drain Connection Fees

This fund is used to account for the capacity and connection fees received for the rehabilitation, expansion and construction of storm drainage facilities.

13-CDBG-8933 Skate Park

This fund is used to account for CDBG grant funds used for public improvements for the skate park. Funding comes from the 13-CDBG-8933 grant revenues.

11-HOME-7661

This fund is used to account for HOME grant funds used to make loans to residents for the purposes of housing rehabilitation and down payment assistance for first time home buyers.

Transportation

This fund is used to account for monies received through the Transportation Development Act (TDA) tax and Surface Transportation Development Program (STP).

16-HOME-11380

This fund is used to account for HOME grant funds used for the Owner-Occupied Rehab Loan Program.

17-CDBG-12011

This fund is used to account for the CDBG grant from HCD for the design and construction of the Well 7 Completion project.

CDBG PI Waiver Water Main

This fund is used to account for CDBG Program Income funds granted to the City from Sutter County for the Pennington Road Water Main Construction Project.

STATISTICAL SECTION

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, property taxes.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place and to help make comparisons over time and with other governments.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the City's financial information relates to the services the City provides and the activities it performs.

Note: (1) Net expense is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program supports itself with its own fees and grants versus its reliance upon funding from taxes and general revenues. Numbers in parentheses are net expenses, indicating that expenses were greater than program revenues and therefore general revenues were needed to finance that function or program.

In 1978, the voters of the State of California passed Proposition 13 which limited property taxes to a maximum rate of 1% based upon the assessed value of the property being taxed. Each year, the assessed value of property tax may be increased by an "inflation factor" (limited to a maximum increase of 2%). With few exceptions, property is only reassessed at the time that it is sold to a new owner. At that point, the new assessed value is reassessed at the purchase price of the property sold. The assessed valuation data shown above represents the only data currently available with respect to the actual market value of the taxable property and is subject to the limitations described above.

(1) The above tax rates are applied per \$100 of assessed valuation.

(2) In 1978, California voters passed Proposition 13 which sets the property tax rate at a 1.00% fixed amount. This 1.00% is shared by all taxing agencies for which the subject property resides within. In addition to the 1.00% fixed amount, property owners are charged taxes as a percentage of assessed property values for the payment of school district bonds.

RATIOS TO 2019/2020 ASSESSED VALUATION: Total Overlapping Tax and Assessment Debt			4.30%	3.80%
RATIOS TO ADJUSTED ASSESSED VALUATION: Total Overlapping Tax and Assessment Debt Combined Direct Debt (\$0,000,000)	3.800% 0.000%			
Combined Total Debt	4.300%			
STATE SCHOOL BUILDING AID REPAYABLE AS OF 06/30/20	\$ -			

Note: Overlapping governments are those that coincide, at least in part, within the geographic boundaries of the City of Live Oak. This schedule estimates the portion of outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account.

The percentage of overlapping debt applicable to the city is estimated using taxable assessed property value. Applicable percentages were estimated by determining the portion of the overlapping district's assessed value that is within the boundaries of the city divided by the district's total taxable assessed value. Excludes tax and revenue anticipation notes, enterprise revenue, mortgage revenue and non-bonded capital lease obligations.

Yuba Community College Live Oak Unified School District Sutter-Butte Flood Control Agency Finance Department, City of Live Oak

CITY OF LIVE OAK Computation of Legal Bonded Debt Margin June 30, 2020

Secured Property Assessed Value, Net of Exempt Real Property	\$ 432,168,511
Bonded debt limit (3.75% of assessed value) (a)	\$ 16,206,319
Less debt subject to limit:	
Total water certificates of participation at 06/30/20 Total sewer certificates of participation at 06/30/20 Total sewer revenue bonds at 06/30/20	 (1,000,000) (780,000)
Legal debt margin	\$ 14,426,319

(a) California Government Code Section 43605 sets the debt limit at 15%. The Code section was enacted prior to the change in basing assessed value at full market value when it was previously 25% of market value. Thus, the limit shown as 3.75% is one-fourth the limit to account for the adjustment of showing assessed valuation at full cash value.

2020	8,912	159,545	17,902	432,168,511	48,493	4.30%

Note: Data pertaining to personal income is not readily available, thus the City used taxable assessed values to calculate per capita taxable property values. Data pertaining to personal income for calendar year 2016, and 2017 is not readily available, thus the City provided an average using data from the last three years.

The California Department of Finance demographics estimates now incorporate 2010 Census counts as the benchmark.

- 1.) Population Projections are provided by the California Department of Finance Projections.
- 2.) Income Data is provided by the U.S. Census Bureau, 2010 American Community Survey.
- 3.) Unemployment Data is provided by the EDD's Bureau of Labor Statistics Department.
